WEATHER BUREAU REPORT.

U. S. Department of Agriculture, Weather Bureau.

The following data, covering a period of 29 years, have been compiled from the Weather Bureau and McKibbin records at Honolulu, T. H. They are issued to show the conditions that have prevailed during the month in question, for the above period of years, but must not be construed as a forecast of the weather conditions for the coming month.

Month, August, for 29 years.

TEMPERATURE, (1890-1905).

Mean or normal temperature, 79.
The warmest month was that of 1900, with an average of 80.

The coldest month was that of 1894, with an average of 77.
The highest temperature was 88 on August 10, 11 and 15, 1896; August 4, 1897; August 9, 1901.

The lowest temperature was 63 on August 23, 1894.

PRECIPITATION (rain), (1877-1894 and 1905).

Average for the month, 1.54 inches.

Average number of days with .01 of an inch or more, 14.

The greatest monthly precipitation was 4.47 inches in 1888.

The least monthly precipitation was 0.16 inch in 1894.

The greatest amount of precipitation recorded in any 24 consecutive hours was 2.51 inches on August 13, 1888.

RELATIVE HUMIDITY.

Average 9 a. m., 66 per cent; average 9 p. m., 72 per cent. (1893-1904).

Average 8 a. m., 70 per cent; average 8 p. m., 69 per cent. (1905).

CLOUDS AND WEATHER, (1890-1905).

Average number of clear days, 11; partly cloudy days, 18; cloudy days, 2.

WIND.

The prevailing winds have been from the northeast.

The average hourly velocity of the wind during August, 1906, was 8.9 miles.

The highest velocity of the wind during August, 1906, was 28 miles from the northeast on the 27th.

Station Honolulu, T. H.
Date of issue July 30, 1906.

Nine o'clock averages from records of Territorial Meteorologist; 8 o'clock averages from U. S. Weather Bureau Records.

WM. B. STOCKMAN,

Section Director, Weather Bureau.

RHEUMATIC PAINS RELIEVED.

The quick relief from rheumatic pains afforded by Chamberlain's Pain Balm has surprised and delighted thousands of sufferers. It makes rest and sleep possible. A great many have been permanently cured of rheumatism by the use of this liniment. For sale by all dealers and druggists; Benson, Smith & Co., Ltd., agents for Hawaii.

WEEKLY WEATHER BULLETIN.

For the week ended July 28, 1906.

Honolulu, T. H., July 30, 1906.

GENERAL SUMMARY.

The most marked feature of the week was the great deficiency in rainfall, as compared with the preceding week, in the Kohala, Hamakua, Hilo and Puna districts of Hawaii, and in the Koolau and Hamakualoa districts of Maui. The deficiencies in the Hawaiian districts ranged from —1.0 to —6.7 inches, the greatest differences occurring in the Hilo district and thence northwestward along the coast to the extreme northern point of the island. In the Maui districts referred to, the deficiencies were not so great, ranging from —1.4 to —3.9 inches, the latter occurring in the inland section of Hamakualoa. All stations report less rainfall than during the preceding week, but excepting in the districts aforementioned, at Kealahou (Davis) —1.0 inch, and in the eastern half of Kauai, they were slight, and did not equal one-half inch.

No rain occurred in the Wailuku district of Maui and thence westward.

The mean temperatures for the week were generally higher than those of the preceding one, on Hawaii, excepting at two coast stations in the Hamakua, and two inland in the Hilo districts. Stations in the central and southern portions of the Wailuku districts of Maui show somewhat lower mean temperatures than during the preceding week, while slightly higher mean temperatures are reported from the remaining portions of the island. At Waimanalo, Honolulu and Waianae, the mean temperature was lower than the preceding week, and higher mean temperatures were reported from the remaining stations. The changes were slight, excepting —2.4 deg. at Waianae, +1.2 deg. at Waiawa, and +1.4 deg. at Kahuku. All stations on Kauai report mean temperatures +.5 deg. to +1.5 deg. higher than during the preceding week, excepting —.2 deg. at Lihue, and —.15 deg. at Makaweli.

The following table shows the weekly averages of temperature and rainfall for the principal islands and for the group:

	Temperature.	Rainfall.
Hawaii	73.8 deg.	0.45 inch
Maui	77.4 deg.	0.50 inch
Oahu	78.9 deg.	0.03 inch
Kauai	77.5 deg.	0.04 inch

Entire Group

75.9 deg. 0.34 inch

At the local office of the U. S. Weather Bureau in Honolulu, clear and partly cloud weather obtained, with traces of rainfall on two dates. The mean barometer was 30.00 inches; mean relative humidity, 66 per cent; prevailing direction of the wind was north-east with an average hourly velocity of 8 miles; maximum temperature, 85 deg., minimum, 71 deg., and mean 78.9 deg., a departure of —0.8. There was a deficiency of .35 inch of rainfall during the week.

REMARKS BY CORRESPONDENTS.

(Note.—The figures following the name of a station indicate the date with which the week's report closed.)

ISLAND OF HAWAII.

Kaunakakai (26)—Clear to partly cloudy and warm weather, with light trade winds obtained. Light showers occurred every night. Mean temperature, 72.5 deg.; total rainfall, .59 inch.—J. E. Gamalielson.

Ponahalu (26)—Weather warm and mostly clear, with rainfall on six dates. Light northeast winds prevailed. Mean temperature, 73.9 deg.; total rainfall, .43 inch.—J. E. Gamalielson.

Hilo (26)—Fine weather, with daily rains, and soft east winds. Mean temperature, 75.7 deg.; total rainfall, .72 inch.—L. C. Lyman.

Papaikou (26)—Warm, with daily showers. Total rainfall, .79 inch.—John T. Moir.

Peepee (26)—Generally partly cloudy weather, with rains daily. Mean temperature, 75.4 deg.; total rainfall, .64 inch.—W. H. Rogers.

Honolulu (27)—Weather continued very warm, with light rainfall, amounting to .34 inch.—Wm. Pullar.

Hakalan (26)—Very warm, with rainfall on five days—total, .53 inch,—and regular trade winds.—Hakalan Plantation Co.

Honohina (26)—Warm weather prevailed, with occasional showers on five dates, amounting to .36 inch.—W. Elliot.

Papaia (26)—Warm days and nights, with light showers except on 25th. Total rainfall, .52 inch.—C. McLennan.

Ookala (26)—Warm and sultry, with light rains on four days. Mean temperature, 76.0 deg.; total rainfall, .47 inch.—W. G. Walker.

Pauilo (26)—Cool during daytime, with thick fog on three days; warm nights, and high east winds. Mean temperature, 69.0 deg.; total rainfall, .72 inch.—C. R. Blacow.

Pauhanu (26)—Little rain, and on three days; good summer weather. Mean temperature, 75.5 deg.; total rainfall, .27 inch.—Pauhanu Sugar Plantation Co.

Honokaa (25)—Rainfall on 19th and 21st. Mean temperature, 74.2 deg.; total rainfall, .30 inch.—S. Gundelfinger.

Niuli (26)—Warm weather, with rainfall on two dates. Mean temperature, 75.7 deg.; total rainfall, .29 inch.—F. C. Paetow.

Kohala (26)—Weather warm, with rainfall on five dates. Mean temperature, 74.6 deg.; total rainfall, .33 inch.—J. M. Souza.

Kohala Mission (27)—Weather generally partly cloudy, with light rains on four days. Mean temperature, 74.5 deg.; total rainfall, .19 inch.—Dr. B. D. Bond.

Punka Ranch (26)—Generally fair weather, with moderate trade winds, and rain on two dates. Mean temperature, 74.4 deg.; total rainfall, .21 inch.—A. Mason.

Waimea (27)—Clouds and sunshine, with light showers on six dates, and fresh "trades." Mean temperature, 67.7 deg.; total rainfall, .22 inch.—Mrs. E. W. Hay.

Kealahou (25)—Generally partly cloudy weather, with rain on but one day. Mean temperature, 73.8 deg.;

total rainfall, .19 inch.—Rev. S. H. Davis.

Kealahou (26)—Very warm weather, with rain on 21st and 26th—total, .63 inch.—Robert Wallace.

Kau (25)—Warm, generally partly cloudy weather with light showers on three dates. Moderate northeast "trades" prevailed. Mean temperature, 70.2 deg.; total rainfall, .22 inch.—J. H. Hayselden.

Nanalehu (25)—Excessively warm, dry weather, with but one light shower, amounting to .12 inch.—G. G. Kinney.

Olaa (26)—Days warm, with light rains on five nights. Mean temperature, 72.2 deg.; total rainfall, 1.10 inches.—E. P. McCann.

Pahala (25)—Excessively warm, dry, with rainfall on but one day, and windy. Mean temperature, 76.8 deg.; total rainfall, .09 inch.—H. D. Harrison.

Kapoho (26)—Daily rains, and strong northeast "trades." Mean temperature, 74.7 deg.; total rainfall, .89 inch.—H. J. Lyman.

ISLAND OF MAUI.

Nahiku (26)—Warm and showery on six days, with light trade winds. Total rainfall, 2.16 inches.—C. O. Jacobs.

Huelo (26)—Measurable amounts of rainfall on six days. Light northeast "trades." Mean temperature, 72.8 deg.; total rainfall, .79 inch.—W. F. Pogue.

Peahi (26)—Fine weather, with light showers on six days, and light trade winds. Total rainfall, .76 inch.—Geo. Groves.

Haiku (26)—Bright sunny weather, with higher temperatures; light rains on five days, and moderate "trades." Mean temperature, 74.8 deg.; total rainfall, .29 inch.—D. D. Baldwin.

Puunene (26)—Weather rainless and warm on days; good rains at ditch heads. Prevailing winds north and northwest. Mean temperature, 78.8.—J. N. S. Williams.

Wailuku (26)—Rainless weather; excessively warm days but pleasant nights; light trade winds. No indications of rain. Mean temperature, 78.8 deg.—Brother Frank.

Kihui (24)—Rainless weather, with strong trade winds, and lower temperatures the latter part of week. A good supply of ditch water coming along, indicating rains to windward, and relieving pumps considerably. Mean temperature, 78.6 deg.—James Scott.

Kaanapali (27)—Very warm and sultry clear weather. Moderate to fresh Ewa (28)—Warm and dry weather obtained. Mean temperature, 79.0 deg.; total rainfall, .00 inch.—B. Muller.

Waiaua (27)—But one rain during week. Mean temperature, 77.3 deg.; total rainfall, .03 inch.—W. R. Waters.

Waianae (27)—Excessively warm, generally clear weather, with little or no wind. Mean temperature, 80.2 deg.; total rainfall, .03 inch.—F. Meyer.

Kahuku (27)—Warm, clear weather; very dry, with but .04 inch of rain; moderate "trades" prevailed. Mean temperature, 79.2 deg.—R. T. Christopherson.

ISLAND OF KAUAI.

Makaweli (27)—Rainless weather, with cooler nights. Mean temperature, 78.5 deg.—Hawaiian Sugar Co.

Eleele (27)—Weather warm, rainless and dry.—McBryde Sugar Co.

.63c. Refined: Unchanged. Net cash quotations this date are: Molasses,

2.97c; muscovado, 3.22c; centrifugals,

3.72c. Granulated, 4.55c. Receipts,

15,052 tons. Meltings, 40,000 tons. Total

stock in four ports, 317,654 tons, against

342,602 tons last week, and 227,456 tons

last year. Beet sugar quotations, f.o.b.

Hamburg, 88.45d. per cwt. for 88 deg.

analysis, without bounty, equal to

3.74c. for 96 test centrifugals at New

York. First marks German granulated

f.o.b. Hamburg, 10s. 5d., without

bounty, equal to 4.34c. New York, duty

paid.

Estimated allotments to the United

States from Cuba and West Indies, 50-

000 tons; Hawaii, 62,000 tons; Java, 25-

000 tons; Peru, etc., 5,000 tons. Total,

142,000 tons, against 170,000 tons last

year.

Net Cash Prices Refined.—It is generally

understood that the lowest price

named for refined here is basis of granu-

lated, in barrels and bags, 4.55c. net

cash, by all refiners.

Statistics by Special Cables.—Cuba.—

The six principal ports: Receipts, 1000

tons; exports, 31,500 tons; stock, 199,-

000 tons, against 317,000 tons last year,

6 centals grinding against 5 last year.

This week's summary of the statistical

position shows stocks in the United

States and Cuba together of 516,654

tons, against 672,602 tons last week and

544,456 tons last year, a decrease of 27,-

800 tons from last year.

Europe.—Stock in Europe, 2,340,000

tons, against 1,538,000 tons last year.

Hamburg reports no shipments of refined

sugar to the United States this week.

Visible Supply.—Total stock of Europe

and America, 2,856,654 tons, against

2,082,456 tons last year at the same

even dates. The increase of stock is

774,198 tons, against an increase of

814,371 tons last week. Total stocks

and allotments together show a visible

supply of 3,011,654 tons against 2,267,-

456 tons last year, or an increase of

744,198 tons.

Raws.—The advance in value of Cuba

centrifugals to the parity of European

beet sugar has brought the anticipated
